

DrillNow™

Life of Field Services

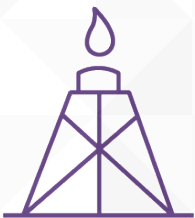

Delivering Superior Service. Wellhead experts since 1930.

TechnipFMC has a proven track record focusing on customers, challenging conventions, minimizing non-productive time and delivering sustainable and successful economics with our suite of complementary services. From exploration phases to production and abandonment, we are with you every step of the way.

Our highly trained and competent technicians backed by product and Life of Field (LOF) engineering ensure that the job gets done right the first time.

We support your operations from our strategically located field bases by providing responsive service, quality equipment and local expertise. Our commitment to HSE, quality and service excellence ensures your success.

Onsite Services

Installation

- ▶ On-demand standardized wellhead and production tree installation services ensure you have the documentation, spare parts, rental tools and training you need.
- ▶ Our professional technicians are expertly trained and competent to deliver flawless execution anywhere, anytime.

Engineered Solutions

- ▶ Backed by decades of knowledge and experience our turn-key solutions minimize non-productive time and maximize up-time.
- ▶ We define the modifications, repair and remanufacturing activities to provide maximum safety, reliability and performance of your equipment.

Preventative Maintenance

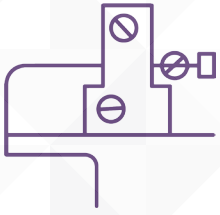

- ▶ Predictive and planned maintenance activities extend the life cycle of equipment and reduce non-productive time, giving you peace of mind.
- ▶ From comprehensive well maintenance programs to intervention solutions we are ready to serve.

Digital Solutions

- ▶ Enhancing your operations through the assistance of digital technologies, our experts provide real-time visual and data monitoring solutions.
- ▶ E-ticketing to field automation our simplified digital services provide uncompromised security and convenience.

Offsite Services

Life of Field Technical Support

- ▶ From pre-sales to abandonment our global network of technical personnel provide application focused expertise to help you make the best decisions.
- ▶ From technical product specification, size and material selection to intervention and repair, we provide optimized solutions for your operations with our range of standard products.

In-shop Refurbishment

- ▶ Return your assets for repair or recertification to one of our strategically located integrated facilities.
- ▶ Our expertly trained and experienced technicians will return your assets to like new, utilizing original parts, standard procedures and state of the art tools and equipment.

Training & Education

- ▶ Our technical personnel complete extensive training curriculums to validate competency before stepping foot on your location or our shop floors.
- ▶ We take it a step further and are actively involved in the communities that we live and work in, providing training and education about our industry and the solutions we provide.
- ▶ From a Wellhead 101 presentation to interns new to the industry or in-depth technical stack-up for your engineers, we have a solution to ensure your confidence in the products and services we provide.
